

Near the university campus there are small-scale health centers as well as a full-fledged state hospital about 3km away. There are also a variety of hospitals and private clinics in the city. To benefit from these health services, all foreign exchange students and visitors are strongly advised to have a valid international health insurance before coming to Turkey. They can also obtain health insurance for a certain period of time from many insurance agencies in Turkey, after entering the country. A comprehensive insurance costs about 60€ a month.
